

THE TIME IS OPPORTUNE.

Since the local railroad is to continue the summer train service schedule throughout the winter, those having houses for rent and not in shape for winter occupancy should make an effort to make necessary repairs. The demand for homes in Bay St. Louis this winter will exceed the supply.

SUBSCRIPTION \$2.00 PER YEAR ALWAYS IN ADVANCE.

BAY ST. LOUIS, MISS., SATURDAY, AUGUST 27TH, 1921.

30TH YEAR—NO. 35.

UNDER HOWLAND, DEPT. OF AGRICULTURE.

BIG FALL REGETTA.

The Bay-Waveland Yacht Club and their representatives are making extensive preparations for the entertaining of the yachtsmen and sailormen that will participate in the long-distance race from New Orleans to Bay St. Louis on September 3rd. Committees of the local club have everything in readiness.

FULLER BULL AT THE HOO-BOO-LOO FESTIVAL.

Mr. Red Hogan, New York City.

Dear Old Sox:

Well, Red, the fair is over—that's fair enough, eh, bo?

I want to whisper in your shell-like cauliflower, Red, that when the hicks of this burg start a Hoo-Boo-Loos they hoo-bo-loo the bird till the last feather moults and hits the terra firma (whatever that is) with a dull thud. Red, boy, you'd knowed the above stanza for the whole gospel had you been one of them present and viewed the remains of your kale-holder the next A. M., and remembered how easy the flappers made you part with it. There were all grades and hues of flaps there, Red, that was, what was it, and them what's bubbling with the ambish to be; they ranged in point of hue all the way from Opal green to a Strawberry frappe, with their lilacs of all kinds: Curly, whirly, swirls, natural, nautrele, unnatural and supernatural... noticed a FEW of the kind that God gives folks, but few, bo, few, and most of them were bel'n taken care of by 'somebody what made it a biz. But, lemme hand it to you, Red, when it comes to flappin' onto a guy and makin' him take a grab at a bag full of breeze, these peaches blow the fuzz all over the orchard, why, bo, I saw one guy what graced the grounds with his presence and what would give no more dern for a dollar than he would for his right arm, I saw some of them frumpy flappers flip the geezer for his wad—yeh, bo, striped clean as the breast-bone of a chicken at a hobos festival, and the poor fish went home at 1 of the A. M., looking like he had had made his peace with God and all he needed was a few flowers for to decorate with. Red, that's what you call putting the sent in sentiment?—But all jokes to the waste basket, bo, they did have one more bunch of laborers in that Hoo-Boo-Loos vineyard, I'll crow it out loud! Everybody from the good Domine what musters his flock down to the 3rd Asst. Lemon Squeezer; and by, while we are in the florist business lets say that them grounds was all to the Stars. Old Kilowatt Star was on the job with his chief Engineer, Horatio of the Wheatfields, and the way they strung up them 50 watties all over them grounds was a caution to Edison; them lights was so bright, Red, that it enabled a Powder-nose to X ray a guys pocket to a fare-thee-well, and size up to the cent his exact assets. But, old coney, lemme tell you that when it comes to rafflin candy and makin' the church win the most, well this same old Kilowatt boy has got the cauliflower all wrapped up and ready for mail. They had Hermann there too—no, not Pete Herman—the real Hermann, the Bokenfohr Hermann, what made a deck of 52's say things what never was in the almanac, he worked along the same trail with the Pied Piper and his Mystic Mohameds and Mohamedines, the Saenger saints what can put one grain of sand on the floor and make it do the continuous for half hour, with no

NOTICE TO APPLICANTS FOR COUNTY EXAMINATION.

The regular examination will be held Thursday, Friday and Saturday, September 1, 2 and 3, 1921 for white applicants and Thursday, Friday and Saturday, September 8, 9, and 10, for colored applicants.

The second fall examination for whites will be held Thursday, Friday and Saturday, September 15th, 16th and 17th, 1921.

All applicants are requested to be on hand at 10 o'clock A. M., with necessary equipment for the examination.

Yours truly,
T. E. KELLAR,
Superintendent of Education,
Hancock County.

OFFICIAL REPORT OF WAVELAND CHURCH FAIR.

In a personally conducted drive to raise \$6,500, the amount of the debt on St. Clare's Church, Waveland, the Rev. Father Costello "went over the top." Father Costello, believing that it was possible to do two things at the same time, while helping to make arrangements for the annual fair at the same time, started out alone on a two days' drive to get \$6,500.

With the fair, however, he was ably assisted by the ladies who had charge of the various booths.

The Misses Grace, at the candy table surpassed all expectations. Mrs. Creel and Mrs. Farrar, who had charge of the cake and punch tables took all they got and a little more.

Mrs. Rood and Mrs. Chalons fed the hungry, but made them pay for it.

Mrs. McHugh and Mrs. Delsa were generous with their ice cream, except they forgot to fill the bottom of the cone.

Mrs. Grace took the orders for the tickets, delivered the goods and got paid. This perhaps, accounts for the fact that the weather was not altogether favorable, especially on Sunday night, still the receipts so far, have advanced beyond the standard set last year.

This, is a surprise, as according to "The Prophets," failure seemed to doom either the drive or the fair, both, however, went on side by side smoothly, and each is now rejoicing that the other went over the top.

The payment of the \$6,500 extends over a period of three years. In the meantime, Father Costello, through the proceeds of the fair, will have ample funds to meet the interest, so that the future of Waveland, as a successful parish, is already assured.

Thanks are due the ladies who worked so hard to make the fair a success, and likewise to those who pledged themselves to free their church of so large a debt in so short a time.

M. J. COSTELLO.

CARD OF THANKS.

We wish to extend our heartfelt thanks to all who came with words of condolence, and to all who sent floral offerings in our sad hour of bereavement in sickness and death of our mother, Annie O. Quintini, whom God in his infinite wisdom chose to call to his reward on August 19th, 1921.

Special thanks to the Reverend Fathers for their spiritual comfort; also to Doctors J. Q. Fountain and C. L. Horton for their untiring efforts; all have the everlasting gratitude of the sorrowing

BAY-WAVELAND YACHT CLUB REGATTA NEXT SATURDAY.

The days of real sport have returned to Bay St. Louis.

The Bay-Waveland Yacht Club has awakened after a sleep of a decade.

The first regatta in Bay St. Louis for many years is scheduled for next Saturday, September 3rd, and local sportsmen are planning to equal this meet with those of the past.

Since the reorganization of the Bay-Waveland Yacht Club several weeks ago, and the date of their first regatta definitely decided, the committee in charge have been untiring in their efforts to bring reminiscences of days of 1901-02 back to the "Bay," when events of this kind were looked with anticipation and much enthusiasm by local sportsmen as well as yachtsmen and sailormen of the Texas and Florida coast, who were always in attendance and were listed among the entries.

Mayor Webb is chairman of the arrangement committee, while the committee on entertainment, reception, racing and dancing have been working harmoniously. Meeting after meeting has been held in their headquarters, leaving no detail undone and sparing no expenses to entertain visiting sportsmen and their friends from the gulf coast—Florida to Texas.

The entire Bay St. Louis-Waveland community and our inland neighbors are extended a cordial welcome. Invitations were sent out, but only to cities and towns from a distance.

After the program of the regatta in the afternoon is completed later in the evening the Yacht Club will act as host to a grand ball at the Woodmen Hall, at 8 o'clock. Those inclined to the art of tapership, should not miss this feature of the program. Everybody is invited and a gala time is to be expected.

If the weather permits all boats, and those in the race from New Orleans are scheduled to arrive before noon of the 3rd, some of the sloops leaving the night before.

The impression that the Bay-Waveland Yacht Club is a new organization is erroneous.

The Club was formerly one of the largest on the gulf coast and was the sponsor of many exciting sloop and cabin races of the years in the past.

Therefore instead of being a new organization with newly elected members, the Bay-Waveland Yacht Club is but an old association brought back to life with the spirit of the present, the history of the past and the hope for the future. Not only will the new officials in charge stage the 1921 regatta but it is planned to make the contest of the water an annual affair.

The course of the regatta to be held next Saturday is of the same used by the Club some twenty-odd years ago and was laid out by some of the old yachtsmen themselves.

The course is triangular, four miles in length and is laid off where the channel is deepest and the directors of the races say that no race will have to be scratched on account of insufficient wind to finish the race in scheduled time.

The naval detachment of the air corps at Pensacola have promised to send over several monster-seaplanes to guard the coast during the races and to give demonstration in flying.

Both cash and cup prizes have been offered as incentives to the various entries for the many different classes of boats. A cup will be awarded to the winner of the race from New Orleans (West End) to Bay St. Louis, also a cup to the winner of the return race to New Orleans.

MRS. W. L. BOURGEOIS HEADS NEW CEMETERY ASSOCIATION.

The up-keep and care of Cedar Rest Cemetery, in Second street, has passed from the City of Bay St. Louis, owner, to the active care of a Cemetery Association, which has been organized with Mrs. W. L. Bourgeois as the active head.

Already the association has quite a large membership and the work of putting the "city of the dead" in shape has begun, and the results are marked.

In consideration of \$50 per annum, paid by the city to the association, the latter, with the collection of its monthly membership fees, will all care of Cedar Rest. The different paths and lanes will be kept of once a year (of All Saints') as has been the custom heretofore, and which obtain in other cemeteries, and to say the least strikes us as a reflection and an evidence of respect to the memory of those who have gone before. Yet Cedar Rest has been a free cemetery, no source of revenue whatever, and the city, under the circumstances, has done its best, and very well at that.

The Echo wishes to commend those who have formed the cemetery association and who are in charge of the work, and the already transformed appearance of the place is noteworthy.

leans. To the motor and sailing vessels two separate cups will be awarded—one to each winner.

The distance of the schooner race will be 12 miles over the triangular course. Cabin sloops, machine sloops and auxiliary yawls will sail over the same distance.

The following prizes will be awarded by the Bay-Waveland Yacht Club:

12-Mile Race—Schooner race, \$50.
Cabin sloop race, (Class A.) \$50.
Cabin sloop race, (Class B.) \$40.
Cabin sloop race, (Class C.) \$40.
8-Mile Distance—Open model sloops, \$30.
Machine sloops, 18 ft., \$30.
Cathboats, under 18 ft., \$25.

4-Mile Distance—Four miles will be the shortest race, which will consist of sloops, cathboats and outboard motor boats.

Sloops, under 18 ft., overall, \$15.
Cathboats, under 18 ft., \$15.
Outboard motor boats, \$15.

The list of the entries having been listed to participate in the event are as follows:

"Sun" owned by D'Antoni & Fabacher; "Robin Hood" owned by Pinac & Tavinnack; "Sis" owned by Wallis; "Pretty Quick" owned by Duvio; "Circe" owned by Tullis; "Mattavee" owned by Luzenberg; "Helen" owned by Foxley; "Agnes" owned by Leverick; "Xiphias" owned by Howard, Jr.

VICTORY AIRDOME.

Monday—Big double bill! "The County Fair" featuring Wesley Barry and an all star cast, also the 15th and last episode of "The Vanishing Trails. The "County Fair" has just finished playing Pearce's Tudor Theatre, N. O. one week.

Tuesday—J. Warren Kerrigan in "The Coast of Opportunity" also a two-reel comedy.

Wednesday—Frank Mayo in "Hitchin' Posts" a Universal special attraction, also comedy.

Thursday—"Women Men Love" a Federated Special feature with all star cast also comedy.

Friday—H. B. Warner in "One Hour Before Sun" also Snub Pollard comedy.

Saturday—Franklyn Farnum in "The Hunger for the Blood" a special western picture, also Mack Sennett comedy.

Hancock County Bank

Resources Over One Million Dollars.

NO ACCOUNT TOO SMALL TO SERVE.

DEPOSITS GUARANTEED.

THERE IS SOMETHING IN A NAME.

To be the FIRST BANK OF HANCOCK COUNTY is a distinction—a distinction in which we have always felt a pride. Not pride of name only, but pride based upon the leadership for which that name has stood in Hancock County's business and civic life.

Today the name of THE HANCOCK COUNTY BANK has a much larger meaning to the people of Hancock County and this entire section than ever before. In the course of events, new and greater responsibilities have developed which have created for this Bank a broader field of business.

As in the past THE HANCOCK COUNTY BANK has endeavored to fulfill its responsibilities of public service, so today, at the beginning of Hancock County's new era of greater civic unity, we welcome the opportunity to prove again our loyalty to all worthy enterprises.

YOUR BUSINESS WILL BE APPRECIATED.

Hancock County Bank.

L. & N. CONTINUES SUMMER TRAIN SERVICE ALL WINTER.

The Louisville and Nashville Railroad will continue the summer schedules of coast trains through the winter, as announced by the General Passenger Agent, J. K. Ridgely. The decision of the company not to discontinue any of their trains was brought about by numerous requests from persons who wanted to live on the Gulf Coast on account of the shortage of houses in New Orleans.

Mr. Ridgely said from the number of inquiries his office had received he was sure there will be a large colony of New Orleans people on the coast for the winter. Under the schedules now in operation three coast point trains are operated for those who wish to come into New Orleans in the morning and return in the afternoon. Leaving the city, trains depart at 3:30, 4:00 and 5:10 p. m. Arriving in the city 7:35, 7:50 and 8:50 a. m. There are other coast trains leaving in the forenoon and returning to New Orleans in the afternoon.

This announcement will meet with unusual approval in Bay St. Louis. If all the owners of rent houses will modernize and improve their holdings there should not be a vacant house in Bay St. Louis the coming winter season. Better traveling facilities means also permanent citizenship and is an incentive to home buying.

and Lape're, tombola booth; Miss Cecilia Bordenon, ticket booth.

Misses Amelia Lucas, Carmen de Ben and Beatina Wilkinson were very winsome as the pretty boutonniere girls and did splendid work.

Mrs. Vallette and her lady helpers made quite a hit as fortune tellers. The Mystic Show was a charming feature under the management of Mr. Piper.

The Italian impersonator, whistling feature of Mr. O. O. Silveira, of New Orleans was an appreciated attraction.

Jack Bokenfohr, as the juggler, did grand work.

The Misses Alice Brady and Baby Love Gaines managed the Nigger Baby and Mystic Show in fine style making quite a success.

Mr. E. J. Leonhard, was ably assisted by the following gentlemen: Mr. A. O. Bordenon, chairman of the gate committee; Mr. L. A. Block, chairman of the grounds committee. Mr. A. Battistella, chairman of the soliciting committee, assisted by Mr. L. Franz, Mr. A. O. Bordenon, Mr. L. A. Block; Mr. W. H. Starr, electrician; Mr. Chas. Hillen and Mr. John Beuhler, carpenter work; Mr. H. S. Saucier, Toonerville grocery; Mr. E. J. Areneaux, artistic sign painter; Ames and Gaspard and Mr. Arthur Seafide advertising at the picture show; Mr. Gus. Ladner, hauling and general help.

Special mention must be made of the following ladies and gentlemen who also worked enthusiastically for the success of the festival: Mrs. R. Hart, Mrs. Petey Tudury, Mrs. Killelea, Mrs. K. Connor, Mrs. Julia Arbo, Mrs. H. S. Saucier, Mrs. E. E. Lucas, Miss Amelia Gragnon, Miss Musson, Miss Lucille Piper, Mrs. Bernard, Mrs. H. Betz, Mrs. P. J. Boudin, Dr. A. A. Kergosien, Mr. Ferd Ramond, Mr. S. L. Touquet, Mr. A. Fricke, Mr. P. J. McGinn, Mr. Peter Monteleone, Mr. A. Scafide, Mr. Funston Mauffray, Mr. Louis Benigno, Mr. A. Loiscano, Mr. Quintini, Mr. H. A. Perro, Mr. A. Schiro, Mr. Scully.

Mr. A. R. Hart and Mr. C. G. Moreau deserve special thanks for giving the festival so much publicity in their respective paper.

We hope that proper allowance will be made for omissions due to lack of space.

Thanks to one and all.

THE PUBLICITY COMMITTEE,
L. A. Block, Chairman.

HOME SITES FOR SALE.

Ford
THE UNIVERSAL CAR

A TRUCK FOR CITY, FARM AND INTERURBAN WORK.

In the few years it has been on the market, the Ford One-Ton Truck has mounted rapidly to popularity. During the past year, more than one-third of the total number of trucks sold in the United States were Ford One-Ton Trucks. It is a record of achievement made entirely on demonstrated merit. Wherever the Ford Truck has been used—on the farm, in the city, its sure, economical service and simplicity have made it a success. So that today is a necessity for the wholesaler, the retailer, the farmer. It offers efficient and economic hauling for every day business. Demountable rims and pneumatic tires. The Ford One-Ton Truck costs less to buy than any other truck; it costs less to operate and less to maintain. Added to this is the Ford service organization; spare parts and Ford mechanics are always convenient and ready to keep the Ford Truck on the job. The Ford Truck cuts delivery costs. Because of increasing demand, orders should be placed without delay. We will give you prompt attention. If you have any doubts on the subject drop into the undersigned authorized Ford Dealers and get facts on the situation.

HOW WOMEN AVOID SURGICAL OPERATIONS

Some Are Extremely Necessary, Others May Not Be

Every Woman Should Give Lydia E. Pinkham's Vegetable Compound a Trial First

Chicago, Ill.—"I was in bed with a female trouble and inflammation and had four doctors but none of them did me any good. They all said I would have to have an operation. A druggist's wife told me to take Lydia E. Pinkham's Vegetable Compound and I took 22 bottles, never missing a dose and at the end of that time I was perfectly well. I have never had occasion to take it again as I have been so well. I have a six room flat and do all my work. My two sisters are taking the Compound upon my recommendation and you may publish my letter. It is the gospel truth and I will write to any one who wants a personal letter."—Mrs. E. H. HAYDOCK, 6282 St. Lawrence Ave., Chicago, Ill.

A Vermont woman adds her testimony to the long line of those fortunate women who have been restored to health by Lydia E. Pinkham's Vegetable Compound after operations have been advised by attending physicians.

Compound, after it had been decided an operation was necessary:

Burlington, Vt.—"I suffered with female trouble, and had a number of doctors who said that I would never be any better until I had an operation. I was so bad I could hardly walk across the floor and could not do a thing. My sister-in-law induced me to try Lydia E. Pinkham's Vegetable Compound and it certainly has helped me wonderfully. I keep house and do my work and have a small child. I have recommended Lydia E. Pinkham's Vegetable Compound to a number of my friends and you may publish my testimonial."—Mrs. H. R. SHARON, Apple Tree Point Farm, Burlington, Vt.

In hospitals are many women who are there for surgical operations, and there is nothing a woman dreads more than the thought of an operation, and the long weary months of recovery and restoration to strength if it is successful. It is very true that female troubles may through neglect reach a stage where an operation is the only recourse, but most of the common ailments of women are not the surgical ones; they are not caused by serious displacements, tumors or growths, although the symptoms may appear the same. When disturbing ailments first appear take Lydia E. Pinkham's Vegetable Compound to relieve the present distress and prevent more serious troubles. In fact, many letters have been received from women who have been restored to health by Lydia E. Pinkham's Vegetable Compound after operations have been advised by attending physicians.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent to you free upon request. Write to The Lydia E. Pinkham Medicine Co., Lynn, Massachusetts. This book contains valuable information.

To Be Exact. "When does the last train leave for Brooks Junction?" asked the fussy old lady.

"I was reading in a newspaper this morning," said the ticket agent, dreamily, "where a celebrated sociologist predicted that the world would come to an end in 1950. Harming unforeseen developments, the last train for Brooks Junction may leave here on or about that date."—Birmingham Age-Herald.

IF YOUR CORNS PAIN YOU Apply Vacher-Balm, it relieves at once. Keep it handy for any other pain. Buy it locally. E. W. Vacher, Inc., New Orleans.

NOT RESTING, JUST WAITING

Idiot Boy, According to Judge Gary, Very Much Like the Rest of the World.

Judge Gary was talking at a dinner about the world's industrial situation. "All over the world," he said, "labor is earning more and producing less. In England, for example, there are more coal miners employed than ever, and the production of coal is lower than ever.

"English labor reminds me of the idiot boy.

"A farmer, out of pity, gave an idiot boy a job. Then one afternoon the farmer walked across his farm to see how the boy was doing. He found him lying on the grass under a tree smoking a cigarette.

"Well, Looney," he said—the boy was known as Looney in the village—"Well, Looney, what are you doing? Resting?"

"Looney took his cigarette out of his mouth and answered: "No, boss, I ain't restin', 'cause I ain't tired. I'm just a-layin' here waitin' for the sun to go down so's I kin quit work."

Agreeable, But—Wife (to hubby deep in his paper)—Ed! I told you you were wrong on that point question.

He—So? She—Yes, and you were also way off on the color of that wall paper.

He—Yes? She—Ed, if you're going to be so unscrupulous I'm going to leave you this minute.

The Animal Tent. "Then, our kid didn't enjoy the circus?" "No, the giraffe was getting its neck washed."

Busy men and ennui are not on speaking terms.

You Always Get full food value for your money when you eat Grape-Nuts

Each golden granule of this attractive wheat and malted barley food is rich in nutriment for body and brain. Serve Grape-Nuts direct from the air-tight packet for breakfast or lunch.

Crisp-Delicious-No Waste

THE KITCHEN CABINET

(By Lydia E. Pinkham's Vegetable Compound)

"It's a sad old world when you're sad. And a glad old world when you're glad. But whether you play or go toiling away, it's a sad old world when you're sad."

"It's a beautiful world to see of it's dismal in every zone. The thing it must be in its gloom or its glee. Depends on yourself alone."

SOME COOLING DRINKS

The following are a few chilly drinks that are different:

Cafe Parfait.—Fill tall glasses two-thirds full of shaved ice. Fill to top with cold coffee diluted with cream and sweetened. Serve with a spoonful of unsweetened whipped cream. Serve with soda spoons. This is equally good made with cocoa.

Mint Tea.—Pour boiling hot tea over a large bowl of mint leaves. Co. and serve with cracked ice, sugar and lemon.

Tea Cream.—Put two ounces of tea in a cup and pour over it boiling water, cover and let stand five minutes. Stir into one quart of boiling cream or rich milk, cover and let stand another five minutes, strain. Sweeten and chill.

Banana Float.—Mash three bananas with the juice of one lemon and one cupful of sugar. Add gradually two cupfuls of whipped cream. Put a few spoonfuls of this in a glass and fill up with orange juice.

Old-Fashioned Ginger Water.—Mix together one tablespoonful of ginger with two of sugar, stir into a pint of ice water, add a teaspoonful of lemon juice and stir well. Serve very cold.

Lemonade all ready for the glass may be prepared by squeezing the juice from half a dozen lemons, add a cupful or two of sugar with one cupful of water and the grated rind of the lemon. Boil until the sirup is thick. Bottle and keep in the ice chest. Use a tablespoonful of the sirup to a glass of cold water.

Bananas en Casserole.—Peel six bananas and cut them in halves lengthwise and the pieces in halves crosswise. Lay these in a casserole. Melt a small glass of jelly in one cupful of boiling water and pour over the bananas. Squeeze over them the juice of half a lemon. Bake in a moderate oven one-half hour, leaving the casserole uncovered.

He that hath never warred with misery. Nor ever tugged with danger or distress. Hath had no occasion nor no field to try The strength and forces of his worthiness.

TASTY DISHES.

A change from the everyday way of serving peas may be found agreeable. This may be used with canned peas or fresh.

Hollandaise Sauce.—Divide one-half cupful of butter into three parts, put one of the pieces into a saucepan with the yolks of two eggs and a tablespoonful of lemon juice, one-fourth of a teaspoonful of salt. Measure a few grains of cayenne and one-third of a cupful of boiling water; stir with a wire whisk until the butter is melted, then add the second piece; stir until mixed, then add third piece; now add the boiling water, cook one minute, add salt and cayenne and it is ready to serve.

Bunelos.—Take one and one-half pounds of veal, cooked tender and put through the meat grinder. To three cupfuls of veal add one cupful of blanched almonds, one cupful of seeded raisins, a teaspoonful of spiced sausage meat. Stew all together with a little veal broth. When cold, form into little cakes and fry in deep fat. Pour over them thickened tomato sauce with onion and sugar.

Pears With Raspberry Purée.—Cook fresh or canned pears; filling the centers with candied cherries in a cupful of sugar sirup; place on a plate, cover with a cupful of canned raspberries pressed through a sieve, covered with whipped cream and serve garnished with cherries.

French Fondant.—Take four cupfuls of sugar, one cupful of water, three tablespoonfuls of white corn syrup (the brown can be used as well, but makes the candy slightly creamy); boil until a drop makes a soft ball which can be just gathered in the fingers when dropped in cold water. Do not stir while boiling, and pour carefully on a large buttered platter, not draining the dish for it a few grains of sugar fall into the mixture they make a chain which granulates the whole mixture when it is stirred. When cool stir with a wooden spoon until it is quite stiff, then pack away in a bowl; cover and let stand until the following day. Any flavor may be added, coloring matter, fruits and nuts, making a large variety. For children maple flavor, or vanilla, with a few candied flowers will be perfectly wholesome.

Neely Maxwell

Feeling Glassware. To toughen jump chimneys and glassware immerse the article in a pot filled with cold water, to which some common salt has been added. Boil the water well and then cool slowly. Glass treated in this way will be more apt to resist any sudden change of temperature.

DAIRY FACTS

BREEDER HELPS ASSOCIATION

Nebraska Dairyman Offers to Sell Purebred Sires at Half Price to Promote Quality.

(Prepared by the United States Department of Agriculture.) Following the meeting of the Nebraska State Dairyman's association at Lincoln, Neb., recently, a prominent breeder from that state offered to provide bulls for a bull association at half their value, according to a representative of the dairy division, United States Department of Agriculture, appreciating the value of the bull association in establishing a certain line

of breeding, this dairyman told a dairy extension specialist that when he formed a bull association he could choose the bulls from his herd, set a fair price on them, and he (the breeder) would cut that price in two.

This breeder has a large and unusually high-producing herd of purebred cows, the herd average being more than 18,000 pounds of milk a year. Offers of a similar character have been made by several other breeders in different sections of the United States, says the department specialist, all of which indicates the value of the association plan as a means of improving the quality of dairy cattle is becoming more generally recognized.

When a bull association is formed one dairy breed, usually the one predominating in the locality, is selected for that association, and purebred bulls of that breed are used to improve the herds. As time goes on a number of good purebred and grade herds of the same breed are developed. When one breeder supplies a number of bulls to one association these bulls, generally of similar breeding, make it possible to concentrate the blood of certain families among 250 to 300 cows. Each bull is used in each block for two years. Thus the four or five bulls are used consecutively for eight or ten years, developing in one community a large number of dairy cattle of uniform type and breeding.

Unusually High-Producing Herd of Purebred Cows.

Experimental Concrete Road, Chevy Chase, Md., After Nearly Two Years' Service.

state and not of the general government, and it should be understood that no state will receive an appropriation from the federal government for road building except under the stipulation that it will make provision for upkeep.

This is good policy and good business, and President Harding is conserving the public interest in bringing it to the attention of the country. States like Pennsylvania, New York, Ohio and Maryland, which have expended millions of their own money on a system of improved highways, willingly would give guarantees along this line, and if any state is adequately to make such an agreement it should not participate in the federal appropriation.

FACTORS IN PLANNING ROAD Location, Construction and Maintenance Must Be Taken Into Serious Consideration.

The three principal divisions of actual road making are location, construction and maintenance. In planning a road it is necessary that we take into consideration all three of these steps, since proper location affects the cost of construction and may materially reduce cost of maintenance.

Some of the things to be considered in locating a road are easy grades, good drainage, exposure to sunshine, elimination of culverts and bridges by avoiding unnecessary creek crossings, directness and the number of farms to be served for a given length of road. Whenever possible to avoid it, a good location should not be rejected merely because a certain roadway has been in use for some time.

BIG TRUCKS ARE EXPENSIVE Damage to Highways and Bridges is Costly Item—New York Plans Tax on Tonnage.

Because big trucks are tearing up the highways and making the repair of bridges a costly item, legislative leaders in New York state are planning to pass a bill that will tax motor trucks weighing five tons and over \$100 a ton every year. It is estimated that this will yield \$350,000 a year to the state.

DAY'S LABOR AND MATERIAL Cost Is Just as Great for Temporary Highway as It Is on a Permanent Road.

Remember that a day's labor and a ton of materials cost as much when applied to a temporary road as when applied to a permanent road, to say nothing of the satisfaction derived from the latter type of highway.

CLEANLINESS IS GREAT HELP One Man Can Groom Two Cows Scientifically in Minute to Remove Particles of Dirt.

Clean cows contribute to cleanliness of milk. With a stiff brush one man can sufficiently groom two cows a minute. If a currycomb is used, take one on which the points have been worn down, so they will not be too severe on the cows.

Healthy Cows. The health of the cows in the herd is of first importance. It is not possible to get good milk from unhealthy cows, neither will unhealthy cows produce the maximum flow of milk.

Digestive Disorders. Digestive disorders in chicks sometimes come from infection from the breeding stock, but this is very rare.

STUDY OF INDIVIDUAL COWS Scale and Milk Record Sheet Give Feed Requirements and Other Characteristics.

The first great step with any dairyman in determining the true measure of his individual cows is taken when he begins to test or deal with his herd as individuals, and not just as a whole. Then he soon learns that he must own a scale and milk record sheet, and use his mind and his pencil to study the individual cow, her feed requirements and her other characteristics.

FOR BEST WORK WITH CHURN Important Not to Have Too Much Cream in a Time—Handle All Butter With Ladle.

To do the best work with the churn, do not have too much cream in at a time. A churn that is too full does not get all the butter out of the cream. So you lose, and lose heavily. You ought to be more than half full—less would be better. And then keep your hands off the butter. Handle it with the ladle.

KEEP MILK IN HOT WEATHER Qualities Improved by Cleanliness of Cow, Milker and Especially of Pans and Pails.

Milk will keep fairly well in the hottest weather, provided the bacteria are excluded. This can be done by cleanliness of cow, bag, milker and especially of milk pails and milk cans. Pasteurization is still used to improve the keeping qualities of milk.

GOOD ROADS

FEDERAL AID FOR HIGHWAYS

President Harding Insists That States and Communities Keep Roads in Repair.

President Harding has touched upon a subject which it is to be hoped he will develop in his communications to congress, and that is the subject of federal participation in the building of good roads. The government is committed to the policy of co-operating with the states in road construction, and there is no disposition to depart from it, but the President is emphatic in his insistence that the states and communities shall assume the responsibility of keeping their roads in repair, which is only a just and fair proposition, says Washington Post.

If the government is to pay out millions of the taxpayers' money to help pay for the construction of roads, only to see within a few years these highways deteriorate into disuse and decay, that money is wasted.

The value of good roads is now generally recognized and the larger and more progressive states have proved that they are good investments. Improved highways mean not only good automobile roads, they mean cheaper and better food, greater values in the land, better opportunities for the rural population. And they also pay good dividends in the huge sums collected in license fees for motor vehicles, enough in most instances to pay the cost of repairs and improvements.

The policy of the government co-operating with the states in the cost of road building has been a great incentive in the construction of better highways and there is no doubt that many thousands of miles of roads have been built under this plan, which otherwise would not have been undertaken. It should and doubtless will be continued, but there should be an expressed guarantee that roads built under this co-operative plan are to be maintained and kept in good repair. This preeminently is the duty of the

state and not of the general government, and it should be understood that no state will receive an appropriation from the federal government for road building except under the stipulation that it will make provision for upkeep.

This is good policy and good business, and President Harding is conserving the public interest in bringing it to the attention of the country. States like Pennsylvania, New York, Ohio and Maryland, which have expended millions of their own money on a system of improved highways, willingly would give guarantees along this line, and if any state is adequately to make such an agreement it should not participate in the federal appropriation.

FACTORS IN PLANNING ROAD Location, Construction and Maintenance Must Be Taken Into Serious Consideration.

The three principal divisions of actual road making are location, construction and maintenance. In planning a road it is necessary that we take into consideration all three of these steps, since proper location affects the cost of construction and may materially reduce cost of maintenance.

Some of the things to be considered in locating a road are easy grades, good drainage, exposure to sunshine, elimination of culverts and bridges by avoiding unnecessary creek crossings, directness and the number of farms to be served for a given length of road. Whenever possible to avoid it, a good location should not be rejected merely because a certain roadway has been in use for some time.

BIG TRUCKS ARE EXPENSIVE Damage to Highways and Bridges is Costly Item—New York Plans Tax on Tonnage.

Because big trucks are tearing up the highways and making the repair of bridges a costly item, legislative leaders in New York state are planning to pass a bill that will tax motor trucks weighing five tons and over \$100 a ton every year. It is estimated that this will yield \$350,000 a year to the state.

DAY'S LABOR AND MATERIAL Cost Is Just as Great for Temporary Highway as It Is on a Permanent Road.

Remember that a day's labor and a ton of materials cost as much when applied to a temporary road as when applied to a permanent road, to say nothing of the satisfaction derived from the latter type of highway.

CLEANLINESS IS GREAT HELP One Man Can Groom Two Cows Scientifically in Minute to Remove Particles of Dirt.

EVERYBODY SEES A CHANGE IN FATHER

Grateful Son Says His Father Looks Like Different Man Since Taking Tanlac.

"My father has suffered from chronic stomach trouble for over twenty years and has paid out thousands of dollars for medicines and doctors," said G. W. Clayton, a well-known Cobb County farmer, living a short distance out of Atlanta, Ga.

"We tried nearly everything trying to cure him and he went off to the Springs, thinking maybe the water might help him, but it just looked like nothing would reach his trouble. Then he tried dieting and lived on liquid food until he almost starved, but even that failed to do him any good and he just kept going from bad to worse."

"I don't guess there ever was a case as stubborn as his, and if there ever was a confirmed dyspeptic he was one of them, and I guess he would have been one yet if it hadn't been for this Tanlac."

"The first I heard of this medicine was when my father saw an advertisement in the papers from parties he knew in Tennessee, who were friends of his and he knew what they said about it was the truth, so he got it right away and began taking it. Well, sir, it acted just like magic—everybody notices the change in a father. Why, he is just like a different man and sits down to the table and eats like a farmhand. Only yesterday he ate pork and turkeys for his dinner and ate so much we were actually afraid he was going to overdo the thing, but he laughed and said nothing hurt him now and that he was hungry and expected to eat and make up for lost time."

"Now, when a medicine will do things like that I think people ought to know about it and I want to say right now that I would not give one bottle of Tanlac for all the other medicines and health resorts in the country put together."

Tanlac is sold by leading druggists everywhere.—Advertisement.

Sensitive Bird. Bird Dealer (to customer who has bought a parrot on credit)—Here's your bill. Are you going to pay for it or not?

Customer—I've had the parrot one whole month and he's never said a word.

Bird Dealer—Well, you see, this polly is so very sensitive it never speaks until it has seen the receipted bill showing it has been paid for."

Embarrassing. "I don't like these 'pay-as-you-leave' street cars."

"Why is that?" "If you accidentally become acquainted with a young lady on them, you are always under obligations."—Pennsylvania Punch Bowl.

The next time you buy calomel ask for

calotabs

The purified and refined calomel tablets that are nauseless, safe and sure. Medicinal virtues retained and improved. Sold only in sealed packages. Price 35c.

CASH for WAR SAVING STAMPS PAID Write what you have to 416 City Bank Bldg. Mobile, Ala.

Good Bye!—Malaria!

TAKE DR. J. J. RUDOLPH'S ANTIPLASMA CURED MALARIAL CURE

GUARANTEED 7-DAY CURE OR MONEY BACK

Recommended for Adults and Children Because It Does Not Contain Alcohol, Arsenic, Narcotics, Quinine, Mercury or Habit-Forming Drugs In Capsules Absolutely Tasteless

Although Antiplasma is a 7-day guaranteed cure, the majority of malaria sufferers taking this treatment, which is in capsule form—hence tasteless—report relief and seemingly normal condition at the end of the third and fourth day!

If your druggist doesn't sell it, mail \$2.00 to the Viro Medical Co., 200 West Houston St., New York, N.Y., and one bottle containing complete seven-day cure will be immediately sent you postpaid.

ASPIRIN Name "Bayer" on Genuine

Beware! Unless you see the name "Bayer" on package or on tablets you are not getting genuine Aspirin prescribed by physicians for twenty-one years and proved safe by millions. Take Aspirin only as sold in the Bayer package for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago, and for Pain. Handy tin boxes of twelve Bayer Tablets of Aspirin cost few cents. Druggists also sell larger packages. Aspirin is the trade mark of Bayer Manufacture of Monocetate of Salicylic Acid.

Contentment is something that sometimes comes to a man with only one pair of pants.

COCKROACHES EASILY KILLED TODAY

BY USING THE GENUINE Stearns' Electric Paste

Also SURE DEATH to Waterbugs, Ants, Rats and Mice. These pests are the greatest carriers of disease and MUST BE KILLED. They destroy food and property. Directions in 16 languages in every box. Ready for use—two sizes 50c and \$1.00. U. S. Government buys it.

TOO LATE

Death only a matter of short time. Don't wait until pains and aches become incurable diseases. Avoid painful consequences by taking

GOLD MEDAL HARLEM OIL CAPSULES

The world's standard remedy for kidney, liver, bladder and uric acid troubles—the National Remedy of Holland since 1696. Three sizes, all druggists.

All Run Down Now Feels Fine

Eaton's Ended His Troubles

"Eaton's is the only thing I have found to stop my heartburn and I think it has been a great help in nervous spells," writes G. C. Johnson. An upset stomach may cause lots of suffering all over the body. Eaton's helps in such cases by removing the cause of the misery, because it takes up and carries out the excess acid and gases and keeps the digestive organs in natural working order. A tablet after meals is all you need. Big box costs only a trifle with druggist's guarantee.

When You Need a Good Tonic Take BABEK

THE QUICK AND SURE CURE FOR Malaria, Chills, Fever and Grippe CONTAINS NO QUININE

All druggists, or by parcel post, prepaid, from Kloczewski & Co., Washington, D.C.

PERSONAL—Exchange post cards, stamps, etc., with people throughout the world. Send ten cents, coin, for list of names. Universal Interchange, Station D, Box 166, New York.

KEYS DUPLICATED IN 24 HOURS—Send sample with order. 2. Send for free Special, price in quantities. MAY KEY CO., 112 Carpenter St., PHILADELPH

If You Need a Medicine You Should Have the Best

Have you ever stopped to reason why it is that so many products that are extensively advertised all at once drop out of sight and are soon forgotten? The reason is plain—the article did not fulfill the promises of the manufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself, as like an endless chain system the remedy is recommended by those who have been benefited, to those who are in need of it.

A prominent druggist says: "Take for example Dr. Kilmer's Swamp-Root, a preparation I have sold for many years and never hesitate to recommend, for in almost every case it shows excellent results, as many of my customers testify. No other kidney remedy has so large a sale."

According to sworn statements and verified testimony of thousands who have used the preparation, the success of Dr. Kilmer's Swamp-Root is due to the fact, so many people claim, that it fulfills all every wish in overcoming kidney, liver and bladder ailments; corrects urinary troubles and neutralizes the uric acid which causes rheumatism.

You may receive a sample bottle of Swamp-Root by Parcel Post. Address Dr. Kilmer & Co., Binghamton, N. Y., and enclose ten cents; also mention this paper. Large and medium size bottles for sale at all drug stores.

Agricultural Gloom.
"Still thinking of buying a farm?"
"No, I've always prided myself on taking a cheerful view of life."

"What has that to do with your buying a farm?"
"Judging from the kind of talk I hear in rural communities, I wouldn't own a farm more than six months before I'd be a confirmed pessimist!"—Birmingham Age-Herald.

Going to School in the Woods.
To go to school in the woods, to assign one's own lessons, to gain first-hand information in local mills, stock yards and stores—it is a part of the new plan for a summer school for boys and girls at the Kansas State Normal school. Scoutcraft will be taught on trips to the woods, and local industries will be observed by the classes. Questions raised on each trip will be taken up in the classroom the next day. Swimming in a pool twice a week will be a feature.

Natural Outcome.
Hipp: "Couldn't he swim against his current expenses?" Hipp: "No. So he just drifted into debt."

Hush money is generally paid or the quiet.

Love is blind until it bumps into an eye-opener.

Daddy's Evening Fairy Tale

MARY GRAHAM BONNER

QUEEN ANNE'S LACE.

"Your Majesty, the royal carriage is waiting. Will you enter it?" So spoke Sir Robert Roadside, and the Queen said, "I will come."

Now you see the Queen was none other than Queen Anne who belongs to the family of flowers known as Queen Anne's Lace. Sometimes the family is known as the Wild Carrot family, but more frequently as Queen Anne's Lace.

As you can guess Sir Robert Roadside was standing very firmly and finely on the side of the road and the carriage was made of nice deep earth in which it was hoped the Queen would take root.

And the Queen did. The Queen brought her lace with her too, for the Queen is known as the Wild Carrot family, but more frequently as Queen Anne's Lace.

The Queen Anne's lace flowers are white and look like little tables of lace upon their father tall stems. Everywhere they can be seen in the country.

"You will be with us for some time," asked Sir Robert Roadside. "We hope you will remain for some time in your flowerly kingdom."

"Ah yes," said Her Majesty, "I expect to be with you until some time in the autumn. Then I cannot stay with you. I must rest. A Queen must not get too weary."

"Have they been talking of Court matters and Royal personages in the Great world lately?"

"Yes," said Sir Roadside, "they have."

"And what have they been saying?" asked Queen Anne.

"They've been saying that they wished, your Majesty, that you wouldn't shove other flowers out of the way. They say that you're so strong and so powerful and that you must have your own way."

"Pray, pardon me, Your Majesty, for telling you this just as it is, but it is what the people say."

The Queen laughed and shook her lace ever so slightly.

"The silly creatures," she said, "don't they know that I am Queen? I shall do as I please, of course."

"To be sure you will," said Sir Robert Roadside.

"To be sure I will," said the Queen.

"I will not pay any attention to what they say. I will grow wherever I wish. I will not let them tell me what to do. If I want to shove other flowers out of the way I will. Most assuredly I will."

"I am sure of it," said Sir Robert Roadside.

"I suppose the farmers were doing a lot of talking," said the Queen.

"You're right," said Sir Robert Roadside.

"They don't like me, of course. I get in their way. I'm nothing but a weed to them. But I'm a Queen just the same!"

POULTRY FLOCKS

GUINEAS NEED LITTLE CARE

Fowls Are Usually Raised in Small Flocks on Large Farm—Pearl is Most Popular.

(Prepared by the United States Department of Agriculture.)
Many hotels and restaurants in the large cities are eager to secure prime young guineas, and they are often served at banquets and club dinners as a special delicacy. When well cooked, guineas are attractive in appearance, although darker than common fowls. The flesh of young birds is tender and of especially fine flavor, resembling that of wild game. Like all other fowl, old guineas are very likely to be tough and rather dry.

A few of the large poultry raisers, particularly those who are within easy reach of the large Eastern markets, make a practice of raising a hundred or so guineas each year, but the great majority of guineas are raised in small

flocks of from 10 to 25 upon farms in the Middle West and in the South.

Domesticated guinea fowl are of three varieties—Pearl, White and Lavender. The Pearl is by far the most popular. It has a purplish-gray plumage regularly dotted or "pearled" with white and is so handsome that frequently the feathers are used for ornamental purposes.

Guinea hens usually begin laying in April or May, those in the South laying earlier than those in the North. A short time before the opening of the laying period the hens with their mates begin searching for suitable nesting places among the weeds and brush along the fences or in the fields. In this search the male takes as active an interest as his mate, and when a suitable location is found both help to dig out the nest and make it into suitable shape.

Each day as the hen goes to the nest to lay the male accompanies her and remains nearby until she comes off. Should anyone approach he shrieks in warning and this betrays the whereabouts of the nest, which might otherwise be difficult to locate. If several guinea hens are mated with one male they usually all lay in the same nest, but sometimes a hen after mating will wander off by herself to make her own nest. At times a male bird, after helping one hen to make her nest, will then desert her and pair off with another hen to make another nest.

From 20 to 30, and often more, eggs are laid before the guinea hen becomes broody, at which time she can be easily broken of her broodiness by removing the eggs from her nest, when she will soon begin laying again. If not allowed to sit, guinea hens will continue to lay throughout the summer, laying from 40 to 60 and in some cases 100 eggs during the season, say poultry specialists of the United States Department of Agriculture.

Ordinary hens are used, commonly, to incubate guinea eggs, but guinea hens, turkey hens, and incubators also can be employed successfully. The usual setting for a guinea hen is about 14 eggs; for a hen of the general purpose breeds, such as a Plymouth Rock, 18 eggs; and for a turkey hen, about 24 eggs. The incubation period for guinea eggs is 28 days, although frequently they start hatching on the 26th day and are all hatched by the end of the 27th day.

If the nest in which the guinea hen becomes broody is safe from any disturbance she may be trusted with a setting of eggs, and more than likely will hatch out every egg that is fertile, provided all hatch at about the same time. As soon as the guinea chicks begin to leave the nest the hen will leave with them, and any eggs that are late in hatching are ruined unless they are placed in an incubator or under a broody hen before they become chilled.

DUCK NOTES.
Broody ducks are scarce articles and make poor mothers.

An overcrowded pen of ducklings induces feather-pulling.

At eleven weeks of age ducklings usually start their molt.

Ducks require more grit or sharp gravel than any other fowls.

It is no sign of impurity when the Pekin duck lays a green-colored egg.

It is just as necessary to avoid overcrowding among ducks as it is with hens.

As ducks very quickly pollute the drinking water, they should never be banded with bangs.

YOUNG CHICKENS NEED BEST FEED

Nebraska Poultryman Gives His Reasons for Start of Runts in Poultry Flocks.

LARGELY MATTER OF RATION
Weight of Chick Varies According to Breed, Those Given Balanced Ration Almost Double Those Fed in Ordinary Way.

(Prepared by the United States Department of Agriculture.)
A pen of ten chicks fed by a farmer in the ordinary way reached an average weight of 9.4 ounces at seven weeks old. Other chicks, receiving a balanced ration reached a weight of 18.5 ounces at the same age. It is my firm belief," says a Nebraska poultryman in a letter to the United States Department of Agriculture, which recently conducted an inquiry into the cause of runt live stock, "that this is the way many runts in poultry start. Here was a case of normal chicks to start with and they developed into runts by the time they were seven weeks old."

Club Investigating.
"Our poultry club in making some investigations," he adds, "visited a number of farms and weighed chicks of various ages at each place. The chicks received ordinary farm feeding and you will see from the figures shown in the table below that they were all under normal, according to the standard weight given by the Vineland (N.-J.) station."

"We find among the flocks under the supervision of our county agent that the weights come up nearer normal, so there is no question in my mind that the runt problem is largely a matter of feed so far as chickens are concerned."

Weights of Chicks Fed in Ordinary Manner Versus Those Given Balanced Rations.

Age.	Ordinary	Weight of Chick
1 week	1.4	1.55
2 weeks	2.8	3.1
3 weeks	4.2	4.65
4 weeks	5.6	6.2
5 weeks	7.0	7.75
6 weeks	8.4	9.3
7 weeks	9.8	10.85

That the standard weights developed at the Vineland station are not beyond the attainment of good poultry raisers is shown by other observations. Ten chicks that had access to dry mash at all times and were carefully handled reached an average weight of 17.6 ounces at seven weeks old. This is 1.4 ounces heavier than the normal or Vineland station weight.

The poultryman who reports these

findings is a member of the Nebraska Poultry Club, which is the only one of its kind in the United States.

BETTER QUALITY OF POULTRY
Platte County (Neb.) Farmer Lists Chickens, Geese and Ducks, All Purebred.

A noticeable feature of the "Better Sires" campaign conducted by the various states and the United States Department of Agriculture is the excellent quality of poultry kept on general farms. Typical of this condition is a statement recently received from a farm in Platte county, Nebraska. The principal live stock kept were Short horn cattle and Poland China swine. In addition the owner listed the following poultry, all of which was standard bred: Seventy-five Barred Plymouth Rocks, 75 Black Langshaws, 100 Brown Leghorns, 100 Rhode Island Reds, three White China geese and three Pekin ducks. It was noteworthy that, whereas the poultry was all pure breeding, the swine had included a number of grade females. The sires kept for all classes of stock were of pure breeding—a requirement for enrollment in the "Better Sires—Better Stock" campaign.

NEW DEVICE CLEANS GRAIN
Recently Invented Contrivance Removes Smut, Dust, Etc., at the Time of Threshing.

A new device known as an aspirator has been designed by specialists of the bureau of markets, United States Department of Agriculture, for cleaning wheat and other small grains by removing smut, dust, and dockage at the time of threshing. This device is attached to the grain-delivery spout, and tests indicate that it removes approximately one-third of what ordinarily is classed as dockage. The use of the device will enable farmers to keep a feed part of the seeds and other foreign material ordinarily handled to the elevator and lost to the producer; it also improves the quality of grain by removing from it a large part of the smut dust and objectionable foreign material. A redeemer for attachment to the deck of threshing machines, all so designed, gives promise of being efficient, it is said.

SOYBEANS SUPPLY NITROGEN
Crop Leaves About Eleven Pounds to Acre When Grown for Hay—Legume Is Valuable.

It has been found that about 11 pounds of nitrogen are left in an acre of land by a common crop of soybeans grown for hay. Corn removes nitrogen from the soil at the rate of 80 pounds an acre. The value of seedling down a pasture to a legume is easily demonstrated.

Four Best Farm Products.
Corn and wheat in the bin, alfalfa in the stack, and cattle in the pasture form a quartette of farm resources that can hardly be equaled by any other four farm products.

Little Extra—Gulf Date.
The Gulf Date is a small, round, black, seedless fruit, which is a native of the Gulf of California. It is a very delicious fruit, and is often used in pies, cakes, and other confections. It is also a very good fruit for eating fresh.

ONION GROWERS HAVE ADOPTED NEW GRADES

Standardization of Bermuda Onion Industry Is Completed.

Commercial Crop of Coachella Valley, Cal., Is to Be Marketed on Basis Recommended by Department of Agriculture.

(Prepared by the United States Department of Agriculture.)
The 1921 commercial crop of Bermuda onions in the Coachella valley, Cal., is to be marketed on the basis of United States-Bermuda onion grades, according to an announcement of the bureau of markets, United States Department of Agriculture. This completes

the standardization of practically the entire Bermuda onion industry in the United States.

United States grades for Bermuda onions were recommended by the Department of Agriculture in the spring of 1918. The same year the state of Texas legislated the compulsory grading of Bermuda onions according to the grades promulgated by the department and adopted by the Texas state department of agriculture.

When the onion shippers in the Coachella valley requested inspection service from the California state department of agriculture in 1921, the department indicated that it would be impracticable to render such service unless suitable grades were agreed upon as a basis for inspection. Accordingly, the shippers made a comprehensive study of onion grades, and decided finally to use the grades recommended by the Department of Agriculture. Perhaps the most important consideration leading to this decision was the fact that since the adoption of the department's grades in Texas there has been a considerable decrease in the number of rejected Texas onion shipments.

Working in Big Onion Field.
The standardization of practically the entire Bermuda onion industry in the United States.

United States grades for Bermuda onions were recommended by the Department of Agriculture in the spring of 1918. The same year the state of Texas legislated the compulsory grading of Bermuda onions according to the grades promulgated by the department and adopted by the Texas state department of agriculture.

It was noteworthy that, whereas the poultry was all pure breeding, the swine had included a number of grade females. The sires kept for all classes of stock were of pure breeding—a requirement for enrollment in the "Better Sires—Better Stock" campaign.

NEW DEVICE CLEANS GRAIN
Recently Invented Contrivance Removes Smut, Dust, Etc., at the Time of Threshing.

A new device known as an aspirator has been designed by specialists of the bureau of markets, United States Department of Agriculture, for cleaning wheat and other small grains by removing smut, dust, and dockage at the time of threshing. This device is attached to the grain-delivery spout, and tests indicate that it removes approximately one-third of what ordinarily is classed as dockage. The use of the device will enable farmers to keep a feed part of the seeds and other foreign material ordinarily handled to the elevator and lost to the producer; it also improves the quality of grain by removing from it a large part of the smut dust and objectionable foreign material. A redeemer for attachment to the deck of threshing machines, all so designed, gives promise of being efficient, it is said.

SOYBEANS SUPPLY NITROGEN
Crop Leaves About Eleven Pounds to Acre When Grown for Hay—Legume Is Valuable.

It has been found that about 11 pounds of nitrogen are left in an acre of land by a common crop of soybeans grown for hay. Corn removes nitrogen from the soil at the rate of 80 pounds an acre. The value of seedling down a pasture to a legume is easily demonstrated.

Four Best Farm Products.
Corn and wheat in the bin, alfalfa in the stack, and cattle in the pasture form a quartette of farm resources that can hardly be equaled by any other four farm products.

Little Extra—Gulf Date.
The Gulf Date is a small, round, black, seedless fruit, which is a native of the Gulf of California. It is a very delicious fruit, and is often used in pies, cakes, and other confections. It is also a very good fruit for eating fresh.

Working in Big Onion Field.
The standardization of practically the entire Bermuda onion industry in the United States.

United States grades for Bermuda onions were recommended by the Department of Agriculture in the spring of 1918. The same year the state of Texas legislated the compulsory grading of Bermuda onions according to the grades promulgated by the department and adopted by the Texas state department of agriculture.

When the onion shippers in the Coachella valley requested inspection service from the California state department of agriculture in 1921, the department indicated that it would be impracticable to render such service unless suitable grades were agreed upon as a basis for inspection. Accordingly, the shippers made a comprehensive study of onion grades, and decided finally to use the grades recommended by the Department of Agriculture. Perhaps the most important consideration leading to this decision was the fact that since the adoption of the department's grades in Texas there has been a considerable decrease in the number of rejected Texas onion shipments.

BETTER QUALITY OF POULTRY
Platte County (Neb.) Farmer Lists Chickens, Geese and Ducks, All Purebred.

A noticeable feature of the "Better Sires" campaign conducted by the various states and the United States Department of Agriculture is the excellent quality of poultry kept on general farms. Typical of this condition is a statement recently received from a farm in Platte county, Nebraska. The principal live stock kept were Short horn cattle and Poland China swine. In addition the owner listed the following poultry, all of which was standard bred: Seventy-five Barred Plymouth Rocks, 75 Black Langshaws, 100 Brown Leghorns, 100 Rhode Island Reds, three White China geese and three Pekin ducks. It was noteworthy that, whereas the poultry was all pure breeding, the swine had included a number of grade females. The sires kept for all classes of stock were of pure breeding—a requirement for enrollment in the "Better Sires—Better Stock" campaign.

DODSON WARNS CALOMEL USERS

You Cannot Gripe, Sicken, or Salivate Yourself If You Take "Dodson's Liver Tone" Instead

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with your bile it crashes into it, causing cramping and nausea. If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents, which is harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your

liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides, it may salivate you, while if you take Dodson's Liver Tone you will wake up feeling great, full of ambition, and ready for work or play. It's harmless, pleasant and safe to give to children; they like it.

WINTERSMITH'S CHILL TONIC
Not Only For Chills and Fever But a Fine General Tonic Wards Off Malaria and Restores Strength. Try It.

MRS. WINSLOW'S SYRUP
The Infants' and Children's Regulator

A few drops, depending on age, added to each feeding keeps baby's bowels regular. This finest combination of vegetable ingredients promptly overcomes diarrhea, relieves wind colic, flatulency, constipation and other disorders—without fully good at bedtime time.

The open published formula appears on every label—always know what you give your baby. Mrs. Winslow's Syrup costs more to make—yet costs you no more than ordinary baby laxatives. At All Druggists.

ANGLO-AMERICAN DRUG CO., 215-217 Fulton St., New York

But the skin-deep beauty of a lovely woman may not be sufficient to hide her ugly temper.

Cuticura for Pimples and Blackheads
To remove pimples and blackheads smear them with Cuticura Ointment. Wash off in five minutes with Cuticura Soap and hot water. Once cleared keep your skin clear by using them for daily toilet purposes. Don't fail to include Cuticura Talcum.

ASPIRING YOUTH FLIES HIGH
But His Educational Qualifications for the Secret Service Were Not Revealed in Letter.

Capt. Thomas E. Halls of the United States secret service receives many applications for positions in the department. Here is one of the choicest and it came from Missouri:

Dear sir: I am righting you this letter in the regard of a job. I Wood like to have a job as United States Detective I often thought that I Wood like to have a job like that so I thought I Wood right to you and see What could be done About it if you can give me a job I will do good honest work I will guarantee that I will do square business I Wood like for you all to help Me out about it I Will help the force out in any way I can I will close hoping to hear from you please right and let Me know What you think about it and tell Me What the terms and Salary is.—Indianapolis News.

Disinterestedness.
"Are you sure that your career has been distinguished by unselfishness?" "I am," replied Senator Sorghum; "I've worried myself into brain-fag over the people in Europe, not one of whom could come out and vote for me even if I offered to pay his expenses."

Give a little more than you promise, but don't promise too much.

Rattling Good Stuff.
"Flubdub's father used to have a large collection of old armor." "Yes, he left the boy a lot of tin."

The definition of murder ought to be broadened so as to take in the fellow who talks you to death.

THE SEA COAST ECHO.
C. G. Moreau, Editor and Publisher.
Official Journal of The Board of Supervisors, Hancock County, Miss.
Official Journal of Board of Mayor and Aldermen, Bay St. Louis, Miss.

CITY ECHOES

—**LOST:** Solid silver, purse with "BABY" engraved on same. Reward telephone 264.

—The Junior Missionary Society met at the home of Mr. and Mrs. E. Ansley with a large attendance last Friday.

—Dr. A. P. Smith and family are at home from a delightful motor trip to Brookhaven, (Miss.) where they have been the guests of Dr. Smith's parents.

Eugene Ansley returned home Wednesday, August 24th from New Orleans where he has been under an operation on his foot having received injuries while playing football.

—Miss Betina Wilkinson who has been visiting at the Graceland home, has returned to New Orleans. She reports the Bay as simply wonderful.

—Milton de Ben joined the family at their summer home here returning from New York after a visit to Tela, Honduras. His friend, Archibald Leftwich, who also made the trip, is a guest at the de Ben home.

—Miss Amelia Lucas was in New Orleans early in the week making preparations for her next year's course at Saint Mary's Dominican College which opens early in September.

—Mrs. Frances Barrett and Miss Annie Mae O'Connor, have returned to their home in New Orleans after a stay of three weeks the guests of Mr. and Mrs. J. L. Gager. Mrs. Gager accompanied the ladies home for a visit of three days.

—Fishing grounds hereabouts have offered the local and visiting angler much sport. Jordan river has never been so popular as the past season and the present time. It has been said the fish hooked in the Jordan is always of a size and quality most desired, and when biting no where else, one can always hook a few in these waters.

—The time to talk for the building of the new Bay St. Louis hotel, is always, but there is no better time and there will be no moment more propitious than the present. The matter should be agitated until it assumes tangible shape and becomes a reality. That Bay St. Louis will get the big hotel which patronage would justify and for which there is an insistent demand, there is no doubt. But the sooner the better.

—Mr. Edw. C. Gardebled, to the delight of his many friends after an absence of several months in New Orleans where he has been under the care of eminent eye specialists at the Touro Infirmary has returned to his home, Bay St. Louis. His condition is much improved. The Echo last week stated that Mr. Gardebled was at the U. S. Marine hospital for treatment. This is erroneous. The treatment Mr. Gardebled received while away was by the leading specialists of the Touro.

Street Commissioner Leopold Bangard is to be commended for the good work he is carrying on over the city and at a minimum of expense. The city is carrying on more work in every branch and is spending less money than heretofore. The treasury is in better shape than in many a year. It will be remembered that the local banks had to carry the city over by loaning large sums of money every year until tax-paying time. This year it will not be necessary.

—Every indication for the success of the Bay-Waveland regatta next Saturday, September 3rd, seems favorable. It is going to be a big day. The number of boats to participate is quite large, if we are to judge from the number of entries and applications and inquiries from owners and others. It has been some years since Bay St. Louis and Waveland have had their annual regatta, and meant so much to this section, and the revival of the occasion is generally welcomed.

—It will not be long before the return of the summer visitor and resident will start the return home with the coming of the early days of September, when many schools in New Orleans and elsewhere re-open for the coming scholastic year. Local business people in position to know say this has been the biggest and most successful summer season Bay St. Louis and Waveland have had in many a year, and the outlook for the next year, if the proper conditions have been supplied in the meantime, will exceed all records. There has been a dearth of boarding and housing accommodations. Many families were unable to locate here for the season due to the lack of housing facilities.

—To Ernest J. Leonhard in a large measure is much of the success attending the efforts of those having in charge the Bay-Waveland regatta to take place next Saturday. He has been made commodore, the mantle of which fits well and falls gracefully over his shoulders, and he has been most active in arousing and collecting all forces that will contribute in any shape, form or manner in spelling success.

—The pleasure pier of the Yacht Club Amusement Company has meant so much to Bay St. Louis this year and contributed largely to its success of a season on entertainment to the thousands who have visited here during the hot months, that the improvements for next year as already announced by the owners will be received as most welcome news. The improvements include the building of a large dance pavilion together with many forms of amusement over the water and adjacent. The bathing pavilion will be modern in every particular and will include about eighty compartments. The Company acquired the property too late this season to make the desired improvements, but it has sufficient success to justify the expenditure of a large sum of money during the winter season in order to be ready next summer.

EDITOR OF THE ECHO ON HIS ANNUAL SUMMER VACATION.

Attends Ball Game at Birmingham and Mingles With Georgia Crackers.

The editor and publisher of The Echo, who is away on his annual summer vacation, while in Birmingham, (Ala.) during the week, was the guest of Henry Vance of the Birmingham Age-Herald, and attended a double-header game in which Atlanta lose both games to Birmingham.

The Age-Herald of Thursday morning contained the following:

"Editor Moreau of the Sea Coast Echo, Bay St. Louis, Miss., is in the city for a few days, and was out at the ball park Wednesday with Mrs. Moreau to root for the Crackers. You see the Crackers do their training in Bay St. Louis in the Spring, and the editor just had to root for Frank's men. He went to the visitors bench before the first battle got going, shook hands with Sammy Mayer and other Crackers, and swapped a few fishing yarns with 'em. I had the pleasure of spending a month in the editor's home town while the Crackers were training there in 1920, and found it the most hospitable little city I ever visited. He will spend a few days here, then visit Chattanooga, and will return in a week or so to Bay St. Louis, Cholly Frank's home town." Mr. Moreau tells me that Cholly couldn't wait for the baseball season to close, and is at his winter home down there now."

CHURCH FAIR AT GRACE VILLA WAVELAND DECIDED SUCCESS.

The Waveland Church Fair given on the grounds of the residence of Mr. John D. Grace, at Waveland, was indeed a great success.

One Thousand and Five Hundred Dollars was realized—the candy table alone, presided over by Misses May Virginia and Evelyn Grace and Mrs. E. Carrere brought in the sum of \$750.00 net.

These beautiful grounds studded with electric lights and beautifully decorated booths and thronged with friends of the St. Clare Church, was the scene of a beautiful occasion, and who came to participate in this big benefit, freely patronized all of the booths thereby assisting in making the event the success it was.

The booths were presided over and conducted by the following:

Candy Table—Misses May Virginia and Evelyn Grace and Mrs. E. Carrere, \$750.00 net.

Ice Cream Table—Mesdames McKee and Delsor, \$180.00.

Sandwich Table—Mesdames Roud and Chalin, \$60.00.

Cake Table—Mrs. Farrar, \$90.00. Father Costello, \$400.00.

In addition to this and during the time of the canvas of the Fair, which was given to assist in paying off the debt of the church, Father Costello secured several thousand dollars in pledges.

A play was given during the evening entitled, "Cure All." Those taking part were: Alvin Speiss, Louise Carrere, O. Flashpole, H. O'Keefe, N. Johnson, F. Kreeger, E. Ives, P. Abadie, K. Barr, A. Randlett, H. Grace, Donald Blanchard, Junior Blanchard, H. O. Keefe, L. O. Keefe, D. O'Keefe.

Fancy Dances by Miss O. Flashpole and Miss A. Ranlett.

Picnic Party: Louise Carrere, G. Johnson, L. O'Keefe, A. Ranlett, N. Johnson, O. Flashpole, M. Speiss.

CHARTER OF INCORPORATION OF KILN MERCANTILE COMPANY

1st. The corporate title of said company is Kiln Mercantile Company.

2. The names of the incorporators are: R. D. Love, postoffice, Kiln, Mississippi; M. P. L. Love, postoffice, Hattiesburg, Mississippi; G. M. McWilliams, postoffice, Hattiesburg, Mississippi.

3. The domicile is at Kiln, Hancock County, Mississippi.

4. Amount of capital stock is TWENTY-FIVE THOUSAND DOLLARS, (\$25,000.00) but the company may begin business when TWENTY THOUSAND DOLLARS, (\$20,000.00) is paid in, in cash, or both.

5. The par value of shares is ONE HUNDRED DOLLARS each. The period of existence (not to exceed fifty years) for which it is created is to do a general retail and wholesale mercantile business, and buy and sell real estate, timber and lumber lands, to execute deeds of conveyance, mortgages, deeds of trust, evidence of indebtedness but the corporation shall not acquire title in fee, or for a term of years, to or own land for agricultural purposes as prohibited by law.

6. The rights and powers that may be executed by the corporation are those conferred by the provisions of Chapter Twenty-Fourth of the Mississippi Code of 1906 and other laws of said State.

ORDINANCE NO. 86.
An ordinance providing for the inspection of milk cows, milk and dairies, making the inspection compulsory, creating the office of milk and cattle inspector and making it a misdemeanor for a violation of the provisions of this ordinance.

SECTION 1. Be it ordained by the Board of Mayor and Aldermen of the City of Bay St. Louis that all persons, selling, giving away, or exchanging milk shall have their milk cows inspected by the City Inspector once each year to ascertain if the cow has the disease known as Tuberculosis or any other infectious or contagious diseases.

SECTION 2. That no person shall sell, give away, or exchange milk for use, from any cow without first having a certificate showing that such cow or cows have been tested or inspected by the City Inspector and the said cow or cows are free from Tuberculosis and all other infectious or contagious diseases.

SECTION 3. That all persons selling milk shall have their places where milking is done or the milk cows are kept, in a clean and sanitary condition and no person shall sell, give away, or exchange milk to any one for consumption without first obtaining a certificate from the City Inspector, that their place, grounds, building or dairy, where the milking is done, or the cow or cows are kept, is in a clean and sanitary condition.

SECTION 4. All cows inspected shall be appropriately marked or branded by the City Inspector.

SECTION 5. It shall be unlawful for any person to sell, give away or exchange milk taken from a cow infected with tuberculosis or any other infectious or contagious disease.

SECTION 6. Persons owning a milk cow or cows shall pay the City Inspector two dollars for each milk cow inspected.

SECTION 7. The Mayor shall appoint a City Milk and Cattle Inspector and his appointment shall be ratified by the Board of Mayor and Aldermen. The term of office of City Inspector shall be one year.

SECTION 8. All persons violating any of the provisions of this act shall be guilty of a misdemeanor and upon conviction shall be fined not more than one hundred dollars, or sentenced to serve not more than

thirty days in jail, or both such fine and imprisonment.

SECTION 9. That this ordinance take effect and be in force from and after its passage, and each person shall be notified and given notice.

Approved in open Board this 6th day of August, 1921.

S. J. LADNER,
Secretary.

NOTICE OF INTENTION TO BORROW MONEY.
State of Mississippi,
Hancock County.
On motion duly seconded and carried, the following was unanimously adopted by the Board of Supervisors at its August, 1921, meeting:

WHEREAS, it is necessary to borrow money for Hancock County to meet the expenses of schools for the current year;

Now, Therefore, be it resolved it is the intention of the Board of Supervisors of said County, on August 6th, 1921, to borrow \$20,000 for the General School Fund in anticipation of the taxes for the year 1921, to defray the expenses of said year; to issue the negotiable note of said county, maturing not later than February 15th, 1922, and bearing not more than 6 per cent interest per annum.

A. A. KERGOSEIN,
Clerk Board of Supervisors.
